

ADD VALUE TO YOUR TREASURY

Our clients are medium to large-sized corporates, banks and public sector organisations where effective treasury management is an important business function.

We provide 'value adding' treasury consultancy and outsourcing for all aspects of treasury, including overall treasury policy, strategy and control as well as the specifics of cash, debt and currency management.

Our expert debt advisory service includes comprehensive loans management, using our proprietary web-enabled system, FTI-STAR.

To find out more, contact Eddie Fogarty.
